Paymasters Of Death

Are We Britishers or Americans ?

English Taxation Slaves

The propaganda that is engulfing the U. S. is drawing a picture for gullible minds to make us believe that American ideals and traditions are outmoded but that British methods of life are superior and should be adopted in America immediately to save us from the Nazis. We are being told not to complain about the increase of the national bond mortgage and to look to England where taxation today takes one third of the earnings of Britishers. Is it not true that we established the Republic and fought England over this issue of taxation, so why are we so stupid to now look up to England as our model, our savior, our taskmaster! Do we want America reduced to squalor which is England and London? Do we want a plutocracy that shifts its tax burdens to its renters while the mass of the people is landless, trespassers on their national heritage! the soil of England.

The Canadian Catholics

The SATURDAY EVENING POST of Sept. 14 carried an article by John MacCormac in which the issue of union between Canada and the U. S. is discussed. Towards the end of the article it is shown that Protestant Canadians have in various instances favored the movement of a union of the two countries, but it was the Catholic French Canadians who tripped the balance against it. They want to remain French, not become Americans. They are pictured as the descendants of the peasant type and the Catholic Church wants them to remain the peasant type, afraid that annexation would Americanize them and the Church would lose control over them.

The Spanish Catholics

COLLIER'S Magazine of Oct. 5 carries an article by Frank Cervasi: **Death's Paymaster.** He depicts Juan March, renegade Jew, turned Catholic, who frankly confesses that he financed Generalissimo Franco to beat down the Loyalists in Spain because this gave March the opportunity of making money and becoming the richest man in Spain. He makes no bones about it. No more than Winston Churchill on his visit to the U. S. when he told the editor of the New York Enquirer, William Griffin, that Nazism and Communism resulted from U. S. meddling in European affairs. Had the U. S. minded its own business, said Churchill, there would have been no Versailles but an equitable peace and Germany and England would have settled their differences to mutual advantage.

The National Whirligig revealed that as soon as the International Financiers were able to persuade Woodrow Wilson to declare war on Germany, even the German government decided to fight on **because they would be able to tap American resources for RESTORATION** of all Europe if the Americans were given a chance to show their "prowess as soldiers" in the field. America had its show and foots the bill.

That the International Bankers are Jews, that the whole murder conspiracy and exploitation scheme continues into the present is plainly demonstrated in **Death's Paymaster** by Cervasi. In this case the Jew became a Catholic, joined hands with the Clerics and Spain was subjected to the ravages of war to put the clerical and Jewish bloodsuckers back into the saddle. Please bear in mind that Adolf Hitler was raised a Catholic and went to help the Catholic Church in Spain.

Colonial Exploitation

COLLIER'S Magazine of Sept. 29 carries an article by W. B. Courtney: **The Hell on Devil's Island.** Here Courtney does not confine himself to demonstrate the fiendish brutality of the French but also shows how the British and the Dutch are exploiting the natives of the Guyanas in South America. Now that we are to defend these "democratic" regimes and accept new bondage to the Jewish financiers who

have deliberately plotted the present war as the Rothschilds, the Kuhn, Loeb Co., the Juan Marches of the world have been plotting them for the last 150 years, it is timely to read such articles and acquaint yourself with actual conditions.

America stands out from the world because of an ideal and a tradition. We want to produce our own, we do not want to exploit other peoples. We want to work, we do not want to rob, cheat and double cross. But all the European nations are criminal in their imperial and colonial policy. Now we are being dragged into the war to defend their colonial possessions. In so doing we are defending criminals against the Law of God which makes them harvest what they have sown. If we do not watch out we shall lose our own liberty in the process and become pawns of the feudalistic system of England and slaves of the Jewish bond masters.

WHY FLETCHER WON'T 'DEBATE'

The following news item appeared in the San Diego UNION:

'PEOPLE KNOW ISSUES'

FLETCHER DECLINES DEBATE

The people of the 20th congressional district already know the issues of the campaign, Sen. Ed. Fletcher, Republican congressional nominee said as he declined Rep. Ed. V. Izac's invitation to debate the questions on the same platform. The congressman, now Democratic nominee, had issued the invitation on his return from Washington.

And on the inside page of the same section in the UNION appeared this editorial:

MR. IZAC'S CHALLENGE

Before issuing any more challenges to Senator Fletcher for a debate on congressional issues, Congressman Izac should take a look at the primary figures and realize that the contest is over. The figures reveal that, from the standpoint of the people's choice, Mr. Izac lost by about 16,000 votes. The general election in November gives him another chance, however.

Mr. Izac apparently has tried to adopt a page from the Willkie handbook, but in trying to use it has mis-read the rules. For when Mr. Willkie challenged President Roosevelt to debate campaign issues, he was challenging the incumbent. There is a great deal of difference.

The conclusion, therefore, that must be drawn from Mr. Izac's challenge is that he regards his record as a liability and not as an asset. He also seems to have overlooked the important point that Senator Fletcher, too, has a record—a record of community service that dates back 40 years. Since both men's records have been carefully studied by the voters, there aren't any campaign issues now—they were disposed of in August. Mr. Izac's task ahead is a bit of evangelistic salesmanship—his opponent has won the debate.

BROOM'S EDITORIAL POLICY IS 'NEUTRAL'

In the congressional election campaign between the incumbent Ed's: Izac and Fletcher, the Broom is taking a neutral position. Neutral means in Latin: We are favoring "neither". But because the Union-Tribune-Sun has taken a partisan stand with its combined circulation of 60,000 readers and favors Ed Fletcher editorially, perverting facts to suit the purpose, The BROOM considers it a duty to the voting public to get the correct picture of Ed Fletcher's 40 years record, of skinning trusting men, women and children out of house and home, out of life savings, breaking their last hope in old age and robbing the taxpayers of this city and county of untold hundreds of thousands of dollars through litigation and promotion of water districts. But Fletcher managed to butter his bread while his victims went on the county.

That the UNION deliberately falsifies the issues of the "debate" is seen in the fact that the debate was refused by Roosevelt for the

75 Days in the Workhouse

Joseph E. McWilliams

NEW YORK (Special).—Joseph E. McWilliams, defeated Republican candidate for congress from Yorkville district, was found sane by the psychiatrists of Bellevue hospital where he had been committed for ten days "observation" by Jewish Magistrate Edgar Bromberger. Being released from Bellevue McWilliams appeared in court and was sentenced to 75 days in the workhouse. He was convicted on a charge of "disturbing the peace" while making an anti-semitic speech from the back of a covered wagon during his campaign.

The sentence of McWilliams by a Jewish magistrate for making a political speech denouncing Yiddish corruption of government officials, is in fact an abrogation of free speech during campaigns. It was alright to turn down Al Smith for presidential nomination because he was a Catholic, but it is all wrong to point to the fact that F. D. R. is part Jew, and in the Jewish courts of New York one witnessed the astounding spectacle that McWilliams was committed to Bellevue hospital for sanity observation, because at some time he had banteringly replied to hecklers who asked this Irish-American what his religion was, that he was a Presbyterian, a Campbellite, and a Mohammedan. If Jews take the attitude that being Presbyterian, Campbellite or Mohammedan is sufficient cause for commitment to Bellevue hospital, we need not be surprised at the momentum with which anti-semitism grows even in New York.

NEW RADIO TIME SCHEDULE

The next radio talk will be given next Wednesday night at 8:15 and each week thereafter on Wednesday 8:15 p. m. in place of Thursday. Same reasons that Fletcher refuses it. Both of them are unable to debate. All their speeches are ghost written and prepared by better minds. Fletcher is getting senile in his old age, has a very bad memory, cannot think straight, is a very ignorant person if you really get to know him and he could not come back intelligently and to the point in any matter of principle or material facts. If he could have his Ghost: Scotty McLeod, the underworld writer, talk for him, as he writes his "orations", McLeod could shine where Fletcher cuts a sorry figure.

"MESHUGGE" IMPERIALISM Part VI

Much obliged, ye leetle varmint, known as printer's devil, for a little harmless fun at times. Last week he changed our 'careworn and "emaciated" ' to nothing less than "emancipated". If the shades of Webster and Mergenthaler took notice, let's hope that neither felt too "discombooberated".—

AT THE SPIGOT

Though endowed, as we have said in our Premise of Sept. 2, with a tenfold substance, thruout the earth, to satisfy the needs, yea luxuries, of tenfold the number of human entities here now and eons yet to come on this "training-ship" in Cosmic space, we have, nevertheless, painful shortage and pitiful want.

"Our economic system, says Dr. Brown Landone, is the strangest thing e'er known on earth. If our economists possessed the wisdom squirrels have, all life for man would be transformed o'er all the earth, within a year".

Our economists are in a "mist".

Indeed, in some places, benighted men, most likely deeming themselves greater than God, blasphemously destroyed that which God's activating Principle, Nature, the great mother, had

Labor Racket

SODA JERKERS TO BE ORGANIZED

An attempt is being made to force the employees of lunch counters and malted milk dispensing establishments to join the closed shop. The beginning is to be made with a newly opened malted milk place on Broadway. If they can get it buffaloed enough to sign up, the union proposes to swoop down on all drug stores.

NEVERMIND THESE HOODLUMS!

The CIO is continuing its nuisance parades in front of the Century Upholstery shop at 2603 University ave. A line of pickets marches daily between the hours of 7:30 to 8 am and 5 to 6 pm announcing that the business is unfair to organized labor because the owners refuse to sign a closed shop contract with the CIO by which they would lose control of their own management. The CIO insists on the "right" to hire and fire the help and to set the wages. Naturally the management won't concede such a demand.

Seeing the queue of pickets there day after day I finally decided to join them with a sign reading: **Nevermind these HOODLUMS.** It is very spectacular to see them marching up and down advertising the second half of my sign which says: **Read The BROOM.**

One young chap attempted a fight expecting to scare me off, but the moment I grabbed him and asked him whether he wanted to be arrested and turned over to the police he changed his mind upon advice of the rest of the gang. Those hoodlums have no proprietary rights to the sidewalk and as long as they are a nuisance and a menace to American rights of individual self-determination in employment, they'll have to help advertise **The BROOM.**

Do You Want to Send This Bird to Congress?

Ed Fletcher's Racket

By Karl Moore, R No. 3 Box 433, San Diego

The Mattoon Act was an innocuous appearing law passed by the Legislature and signed by the Governor in 1925. By a quirk in its provisions real estate speculators could ask for a resolution by the Board of Supervisors, setting up such a district. Before the surrounding taxpayers were aware of what was going on they found themselves paying for roads and improvements for which they had no possible use.

Then began a field day for the speculators. For always the improvements covered, like a blanket, the land they had to sell. From offices in town and from offices on the tracts, they controlled a horde of high-pressure salesmen who began dealing in blue-sky futures. Any man with an iota of experience, not to say common honesty, knew that the deluded lot buyers would lose every cent they invested.

There were over half a hundred of those districts promoted in this County. Every single one of them defaulted on their bonds. Homes nearly a mile away from the improvements were sucked in, defaulted on their taxes and were sold. All the land within the wide boundaries of these ill-conceived districts was rendered worthless. Hundreds of families were pauperized. That is not saying a word about the actual cash paid by investors for their lots. It was lost, every cent of it, and the actual cash paid by bondholders for the bonds that covered the improvements, also lost. Not quite every cent, but when you figure the interest lost over the years and consider the fact that most of the bonds were redeemed at around 20% on the dollar, you can also say quite truly that the bondholders also lost every cent of their investment.

Rubbing It In

Not a single promoter of a Mattoon District has ever reimbursed the innocent lot buyers. But one of these promoters, Ed Fletcher, is now brazenly seeking the office of Congressman from this District. After the fearful collapse of the whole Mattoon Act scheme, the least he could have done honorably would have been to return to the investors every cent that he could.

Lest our readers imagine that this Mattoon District business was but a temporary aberration on the part of Fletcher, a sort of delusion attributable to his age and failing powers, look at the record, for it is a matter of record that at least six tracts in at least five Mattoon Districts, were promoted, instigated and bled white by Ed Fletcher. In some he owned all the land; in others he dragged in the adjacent countryside. One of his chief allies in the present campaign, Fred Thatcher, is primarily responsible for the Market Street A.I.D. No. 13, that utterly bankrupted a wide swath from 30th to 69th Streets.

These promoters knew what they were doing. Ed Fletcher had been promoting real estate time out of mind. But they had nothing to lose. Take Fletcher Hills No. 2, or as it is known in the records, A.I.D. No. 19—there were 420 acres that probably were worth from \$15.00 to \$28.00 per acre. When each and every acre had a bonded indebtedness of over \$1280.00. Overlapping bond districts and accumulated interest at 7% soon had the bill up to over \$1500.00 on each acre. Even the circumspect Fletcher admits that the contract price was inflated and that the asking price for the lots was extortionate.

Nearby was another Fletcher-promoted district A.I.D. No. 12, romantically called Villa Caro. Fletcher was the sole applicant for a Mattoon District for this tract. Another one of his splurges, where he was the sole signer, was North Leucadia, A.I.D. No. 42. And he promoted Rancho Santa Fe, altho no name appears as applicant, it was evident that he and he alone was the responsible agent in inducing the Supervisors to create that headache.

Yes, Ed Fletcher, with his eyes open, saddled upon the people of San Diego County, one Mattoon District after another.

Taxpayers Foot the Bills

And then a very funny thing happened. Ed was elected to the State Legislature. By some strange coincidence the Legislature passed Mat-

Spain's "Moe Annenberg"—Juan March

In tonight's program Mrs. de Aryan is discussing with me the present world upheaval which is making history. We are so close to the picture, being contemporaries, that few realize what is actually going on and why, nor where it is leading. I shall endeavor to give you a correct outline of the factors in the present struggle and point out the future towards which we are striving, some of us consciously, most of us subconsciously.

VEIVA—Did you read Collier's Magazine last week and the week before, with reference to the articles entitled: THE HELL ON DEVIL'S ISLAND and DEATH'S PAYMASTER?

KOSTI—You mean the issues of Sept. 25 and October 5;—yes, I read them as well as the articles you refer to in Colliers' Magazine.

VEIVA—Frank Cervasi, who wrote DEATH'S PAYMASTER, gives incidental details of the last Civil War in Spain, saying that Juan March was the moving genius behind the whole war. He closes the article with this statement concerning Juan March: "You ask him why he ever backed France, at all, why he set into motion the forces that devastated Spain and are now devastating Europe, and he replies candidly: 'I wanted to make money.'"—I cannot possibly conceive of such a horrible thing that a man who is a multimillionaire and brags that he is the richest man next to Henry Ford, would deliberately start such a bloody war for the sake of making money.

KOSTI—You have Cervasi's quotation out of the mouth of Juan March himself, so better read adjust your mind to brute facts and get out of your unbelieving attitude. Neither would one believe that human beings would be so brutal as to bomb London and Berlin and kill people as they were killed mercilessly in the Spanish Civil War, but the facts prove that the leaders on both sides are just cold calculating machines figuring how many they must kill and maim before the other side would give in, as they did in the war between Franco and the Loyalists in Spain.

VEIVA—But you are not going to stand there and tell me that this whole war is being fought for somebody to make money?

KOSTI—You had better read that article in Collier's Magazine by Frank Cervasi again and learn how these things are arranged. DEATH'S PAYMASTER is a perfect name for what is going on in the world today. You will see that March changed his religion for the advantage it gave him to throw his lot in with the Catholic Church in the war against the Loyalists, but being an international financier, like the international Rothschilds, his main aim was frankly to make money, just as the Rothschilds have always made money out of the wars of Europe by hiring out Hessian, Swiss and other mercenaries to whomever was willing to pay. That money is always squeezed out of the unfortunate taxpayers where those international financiers collect for the loans they make to keep the wars going and as long as there are people who will read how and why Spain's war was arranged and how it made March the richest man in Spain,

toon Act moratorium laws. Their purport was that the final due date for taxes on property in the Mattoon Districts was extended a year. Ed and his friends and his affiliated companies got hold of quite a lot of this property.

As the years went by more moratoriums Acts were passed. Finally the legislature passed a blanket law allowing the Mattoon infested counties to issue bonds to retire the Mattoon bonds. This was done in San Diego County. There was a mad scramble for a while and the District Attorney's office had a little difficulty, but in the end, Ed Fletcher's Mattoon Districts were freed of their bonded debt,—for after all, the improvements were still there, street lights, curbs, sidewalks and paving.

And the old boy is again doing business at the old stand. The lots are again for sale; high-pressure salesmen are again "giving the suckers the works", and in just a little while Ed will be ready to let his beloved fellow citizens in on some brand new gilt-edged deal.

Editor's Note:—Our attention has been called to the fact that the "Hon." Ed Fletcher is the Republican opponent of Ed Isaac, the incumbent NEW DEAL congressman. We were asked whether we are aware of the fact that by presenting our sketches about the "Hon." land shark now we are helping a Roosevelt man's re-election. We were asked to wait and make our disclosures after election.

THE BROOM is a newspaper. The daily press is picturing Ed Fletcher as the savior and new messiah for poor San Diego. Our business is to state the facts. It's up to the voters to weigh the opposing candidates in the balance. If the daily papers were to tell the Whole Truth, we would, of course, be quiet, but since they want to send a crook to congress we show him up in his true business,—a land shark, uncrupulous and raw. He's worse than the New Deal.

without awakening to the fact that the other international financiers are behind the present holocaust, wars will continue to lay waste rich countries that a few may emerge complete commercial and political rulers of the countries involved.

VEIVA—I was so surprised to read in W. B. Courtney's article in Collier's Magazine about THE HELL ON DEVIL'S ISLAND that the Dutch government was exploiting the natives in Dutch Guiana just as mercilessly as did the French and the British in their respective colonies. You know, I was under the impression that the Dutch were interested in helping to civilize the natives for their own good. That is the reason why I sympathized with the Dutch in this war. Is it possible that Collier's Magazine is biased against the British and the Dutch or that it wants to start race hatred against the international financiers when it publishes such brutal articles about Juan March?

KOSTI—There is one thing you must realize about American writers, reporters and the American institution of Free Press. It has survived for a century and a half against all insidious pressure and corruption, because it has members who are intelligent enough to realize that you cannot fool all the people all the time. They know the truth will eventually come out, so if eventually, why not now? No matter how much the press is controlled, when facts are so evident that they cannot be ignored, you will find courageous columnists, roving free lance writers and magazines who will publish these facts inspite of the sensations they must create when they disclose the news behind the news in a world controlled by paid propaganda. Collier's Magazine is anti-Nazi, anti-Fascist, but by no means anti-Semitic. In its articles about India Jim Marshall and other writers show that the whole colonial policy is nothing but the most cruel exploitation of subjugated peoples and that this same policy is followed by every nation under the sun, except the United States,—Collier's Magazine follows the tradition of a free Press. I have personally made the same experience in the various colonies. I have learned the same lesson about the European wars. I cannot get excited about patriotic heroics, because I know that it is all engineered for some fellow in the background to collect his shekels and emerge as the dominant person on the international checkerboard. The colonial policy of the United States is an innovation in the history of colonies. Our rich men had every opportunity to make more money on the continent so our government instead of draining the colonies in the Pacific and Atlantic islands, has invested tax funds collected from American tax payers on the main land. But the European nations are not so big hearted. Everyone of them is collecting the full cost of administration of their colonies from the native peoples involved and on top of that they export millions in taxes to the mother country. England drains India to the tune of ONE BILLION dollars every year, while its investments in India are not more than seven billions. In the same fashion the other nations drain their colonies, they don't care at all how much poverty that imposes upon the natives. When a colony fails to pay then England is willing to lease it out to the U. S. for a naval station as they did recently in the Caribbean sea. They are quite willing to let Uncle Sam foot the bills so they can get a profit out of the lease.

VEIVA—What I cannot understand is how God in His infinite mercy and sense of justice permits such conditions to exist.

KOSTI—You are not alone in this puzzle. Every student of religion had to solve it as soon as he approached the question seriously. Yes, it looks like a paradox. A loving, almighty God, omniscient, who foresaw all such brutalities and still nothing happens to stop them. It looks bad for God at first glance.

VEIVA—Do you know the answer to this puzzle?

KOSTI—The answer is very simple, it has been taught by all great religious systems of the Aryan race. The answer is written right in your own soul and spirit. You know it subconsciously, it is contained in these two words: FREE WILL.

VEIVA—What has free will to do with all this misery of the war? The common people never want war? They are not killing themselves of their own free will.

KOSTI—It looks complicated, I know, but just the same, the answer is FREE WILL or if you want to, you can call it; LIBERTY & democracy with a small d. To understand this thing you must become a realist and start out with facts and fundamental truth. The ancients always told the student to start studying himself: learn to know yourself! You would not want God to make you a slave and an automat. You want to be free to do what you chose and you are willing to learn by the resultant experience, be it joyful or painful. And that is what you really want. That is your true nature. The moment you are taken care of like a domesticated animal

and can't jump over the traces, you begin to rebel, you want to be on your own. And therefore God granted you all this liberty to make a heaven and a hell. You have to learn the hard way where you do not want to follow precept and think before you jump.

VEIVA—But it is terrible to go through such awful experiences as the people in London, Berlin and France had to go. They are not safe a single moment of their lives.

KOSTI—That is the great responsibility we have taken upon ourselves when we demand LIBERTY and democracy with a small d. Now each one of us is responsible for what we do with this power. We can choose to follow the path of Christ or we can choose to follow the path of Materialism and the Shekels, as described in DEATH'S PAYMASTER, and be Christians merely in name, while indulging in brutal murders on an international scale. You cannot blame God for what we do with the sovereign powers we exercise. The marvel of it is that in spite of this destruction, in spite of all these inhumanities, inspite of all this spirit of defeatism where people yield to the war call contrary to their better judgment, there is enough power left to recover from it all and start all over again.

VEIVA—Are we going to enter the war?

KOSTI—We have entered the war. It is now merely a matter of exigency when Germany, Italy and Japan will decide to get even with us for helping England. Without our policy of paying \$35 for a \$12 ounce of gold, Europe would have been too bankrupt to get into the war or to keep it up. It is our money, taken out of the pockets of our tax payers, which Henry Morgenthau was handing out to Czecho-Slovakia, to Poland, to Russia, France, Germany and Belgium to get those countries ready for war. Europe was not able to pay back the old war debts, so it could not have started another war, but the PAYMASTERS of DEATH figured out a way to finance a new war with our money and that is the policy of buying gold and silver at twice and three times its product's value.

VEIVA—What will the outcome of it all be?

KOSTI—For the near future it will spell universal war for all the nations on earth. As a nation we have neglected our individual sovereign responsibilities. We delegated our powers to congress and the president and they introduced the NEW DEAL and the policy of financing a new world war through the gold and silver buying process. We are the only nation that was rich enough to start on such a spending orgy and pay for the wars in Europe, so we got caught a second time.

VEIVA—Will the U. S. and Canada become one country and will we join up with the British empire as one nation?

KOSTI—Ultimately America and the British empire will become one nation, just as the whole world will become a federation of nations and war will be actually eliminated, but that is not in prospect in the near future, even as the treaty of Versailles did not produce peace on earth, though it produced a counterfeit League of Nations.

VEIVA—When will it happen, then?

KOSTI—At present even Americans imagine that the best safeguard for Liberty and democracy with a small d, is more armaments and more militarism. Naturally that is playing right into the hands of the international PAYMASTERS of DEATH. After our national debt will have piled up to ten times the burden it is today at the rate we are going, and after we will have made mortal enemies of every country in the world in order to protect the British Empire and the International Investments of the other fellows who have always worshipped the Golden Calf, in the midst of all that resultant misery, our own subconscious desire for kindness, honesty and fair dealings will arise in desperation and take charge. Then the notion of "let George" do it will be scorned. We, as a people will have been burned so badly, that we shall emerge from our apathy and realize the terrible responsibility that goes with Liberty and democracy. And that let us hope, will be the beginning of a new era, not only for America but for the whole world.

HEALTH-GERMS

By George Starr White, M. D.

THE OVERWORKED LIVER

Since one of the most important functions of the liver is the segregation and elimination of impurities, it naturally becomes overworked when an excessive amount of the substances that produce these impurities is used. Such substances are alcohol, tobacco, refined sugar, boiled coffee, chocolate, etc. In fact, poisoning of any kind will put the liver out of commission. Mineral poisoning from eating food cooked or stored in aluminum, is an example.

Dr. Geo. Starr White

When the liver is overworked, it lets its owner know it, by all sorts of hints—headache or migraine; dizziness; sluggishness of mind and body; fatigue with the inclination to lie down often; indigestion and biliousness; jaundice; and more serious symptoms. If these warnings are disregarded, the liver strikes back with fearful blows—an impoverished blood and deranged metabolism.

The principal remedy is to stop using the substances which are poisoning the system and overworking the liver.

If the liver be sluggish and in need of stimulation, bending exercises which bring the trunk of the body into action are beneficial. Twisting exercises are also good. One of the best is to stand erect, heels together and chin elevated; and then twist so U are looking to the right and then to the left without twisting the neck or turning the head. This is truly a liver-"squeezer", or liver-activator.

MEDICAL OCTOPUS DOES ITS "WORK"

WASHINGTON.—Local draft boards and physicians in local communities will do the preliminary sifting of those called up for examination, and as many as 30 percent may be eliminated immediately because of poor teeth, flat feet, hernias, hemorrhoids, tonsillitis, faulty vision, venereal disease and other ailments. None will be excused from possible duty but will be put on deferred status under which they are subject to call at any time.

Second Exam Planned

Men selected for training will undergo a second medical examination, much more thorough than the home examination, when they reach a training camp.

Every man accepted for enlistment in the original draft must be proved to be free of tuberculosis in X-ray diagnosis and tuberculin tests, have no major eye disorders, have sound feet, teeth and hands, be able to read and write, have no evidence of infectious disease, be free of syphilis and gonorrhea and be able to pass a reasonable intelligence test.

Compulsory "Treatments in California"

Dr. Thomas Parran, surgeon general of the U. S. public health service, estimated that between 20,000 and 30,000 unsuspected cases of tuberculosis will be found in the examination of draftees and that an unpredictable number of cases of latent syphilis will be found. All of these, he hopes, may be placed under treatment immediately.

Conscription Invades Inalienable Rights

Editor: Time was when parents held the right to slay their children. That time has past. With the World war the practice of mothers arising to uphold military conscription should also have passed. One such mother simply illustrates the crucial fallacy of the draft defense when she says, "My capacity for suffering," if her sons were conscripted and slain, "is no greater than theirs" (mothers of slain volunteers). Please note that "my". Indeed both would suffer; but the vital question is not not whether mothers of conscripts would grieve more or less than mothers of volunteers over sons killed in war, but what is being done to the men themselves, what are we doing to mankind? I, who am also a mother, hold that the conscript for military service is robbed of his birthright, his freedom, his inalienable "yes" or "no" as to giving up his life. Life is something sacred, something different from property, different even from labor, and neither his mother nor his government has the right to demand of an innocent man his life. Property may be restored; labor may be paid for; but life, once taken, may never be restored nor, to its owner, paid for. Life is individual, bestowed upon individuals and not upon governments. No state of itself has life, No state ever conferred it; no par-

ents can ever re-confer upon one slain son whatever element of his life they first gave him. A man's life is his own, not his mother's or his country's, unless he offers it. It is his to decide.

And let us not try to gild conscription by enlarging on the benefits of physical training. Conscription is for war; war is for killing; training is no mere calisthenics. After the World war I saw some of this training on the screen, little children seeing it, too; effigies of men, and real men practicing how best to stick bayonets into them. No wonder we had then a great "crime wave", boys in their teens doing some gruesome murders. Society had sowed the seeds of slaughter and was reaping what it sowed. Now the weapons are more frightful.

In refusing to be drafted for World war military service, Assemblyman Paul Richie showed more courage than those who were led, without volition, into

I admire the students who protest at Berkeley now. The vaunted "equality" of the draft is potential slavery.

Charles Lindbergh's sane plea for peace should be heard above the sophistries of Elliott Roosevelt and the threats of University President Sproul. America is not attacked, nor in imminent danger. Some of the ablest men in the country are of this opinion. The great chance is still ours, to build for peace and not for war. War has been tried and found wanting. Standing armies are impliments of tyrants, whether tyrant men or tyrant states. They can destroy representative governments overnight. Witness Napoleon Bonaparte's "coup" and Louis Napoleon's "coup". Of Hitler's rise to power, Miss Lend, an eyewitness, writes, "They," the people, "did not even see how radical the changes were which were taking place." Do we?

taken pains and joy to bring forth. Lest prices might be affected adversely to Profit-taking? Yes, that's it. And who is it that has so cunningly possessed himself of all the avenues of distribution, who plays both ends against the middle. And the dumb ox, the Goy, getting it in the neck, coming and going?

For the answer let us read what is said in Schulchan Aruch, Chosen Hamispat 348: "All property of other nations belongs to the Jewish nation, which consequently is entitled to seize upon it without any scruples. An orthodox Jew is not bound to observe principles of morality towards people of other tribes. He may act contrary to morality, if profitable to himself or to Jews in general."

(Schulchan Aruch is a compendium of Jewish scriptures which are the highest religious authority of the orthodox Jews.—Editor.)

In the book "Men who rule America" the total wealth of the 440 white American ruling families is listed as not exceeding 25 billion dollars; while the wealth in control of INTERNATIONAL JEWRY is more than 500 billion.

No wonder, pro-Jewish author Sombart writes in his suppressed book, "Jews and Modern Capitalism", boastfully: "The Jews became Lords of Money—and LORDS OF THE WORLD: The great speculative banks (Jewish), holding the handle of the machine called the Stock Exchange, tend to become—ENTIRE MASTERS OF ECONOMIC LIFE".

No wonder that "DER TAG" (The Day), New York Yiddish Daily, should exultingly give vent to the following cry of triumph over the "tolerantly unsuspecting" Goyim: "The Jews of America, because of their NUMBERS, interest and ability, constitute a GREAT POLITICAL FORCE. They have not usurped this power; it BELONGS to them as of right! They are going to exercise it as THEY see fit! What are you going to do about it?" (Editorial of April 9, 1936).

Karl Mordecai-Marx (Jewish founder of Socialist-Communism) said: "It is in vain to look for a key to the labyrinth of the Jewish soul in his religion. On the contrary, one must look for the mystery of his religion in the mystery of his nature. What is the basis of Judaism? A practical passion and a greed for profit. To what can we reduce its religious worship? To extortion. Who is their real God? Cash!"

Aha! Thus speaketh one of their very own, a High Priest, indeed, of "the chosen people", who, lovers of Profits, consistently killed their Prophets, lest their Profits be killed.

And, so to "looking in vain for the key to the labyrinth", we'll answer that one: THE SECRET OF THE JEW.

The Jews were for thousands of years a shiftless and trifling people like unto our Indian half-breeds in Northwestern America, but in time they formed themselves into a nation. They were then instructed how to live and how to form a government and received books and writings, such as the Decalogue (Moses). The Jews were then, as they are today (with few and rare exceptions), a purely material people, and their sole ambition was, as it is today, to build and accumulate material wealth. They loved material wealth, could think of nothing at all but money and material wealth.

And now we will give you the reason for this phenomenon: The higher understanding of the Jew could not be opened from above, but only

SPAIN WON'T DECLARE WAR—Yet!

As long as Juan March is the actual ruler of Spain there will be no active participation in a war against England. Juan March, a Spanish renegade Jew, joined hands with the Catholic Church for the money there is in it for them. He financed Franco and was instrumental in getting the large estates of the Catholic Church back from the peasants of Spain who had partitioned them among themselves during the republican regime. Juan March is the link between International Jewry and Franco. At present he dominates the picture with the aid of the Catholic Church. In fact he is the "Rumanian King Carol" of Spain holding stocks in every vital industry.

NO THIRD TERM FOR ROOSEVELT !
I don't like Eleanor either.**Germany Seeks Markets, Not War**

Anyone ever hear of the Germans sinking a wealth-laden ship bound for Germany? Certainly not. The Germans sink only those ships bound for the ports of her enemies. Were the Germans privileged to send the products of their industry to American markets in exchange for the products of American industry, is anyone so bereft of reason as to imagine Germany would seek to destroy such privilege? It is reasonable to suspect that if Germany enjoyed free and unlimited access to American markets for the products of her industry, she would be perfectly willing to go to great lengths to protect those markets. Germany, like other nations, does not arm and make war for the mere sake of fighting. Germany seeks markets, not war, and is willing to fight for them if they cannot be obtained otherwise.—Cause and Effect, Chicago.

from below—and if a man's interior understanding is opened from below he will turn truth into falsity and good into evil; of the true Light he would make light of, and all that is highly moral he would turn into sport and depravity.

If the foregoing is "speaking in riddles"—you must wait until the light dawns; we cannot now say more on the subject.

Except this: We, of the proud Aryan race, that is, some of its fabulous "leaders", are at the present time practicing the same thing today as the Jews have never ceased doing, & if there is any difference between the two people, it is that we are the more foolhardy, gullible and dishonest.

For what in the Jew is part and parcel of a characteristic makeup by now which it will be very difficult for him to "burn out", with the emulating Aryan it becomes downright perversion, for it is wholly unnatural as to his interior—and the subsequent penalty for his foolhardy transgression is apt to be much more severe, except he turn back in time and make amends. Sherry vs. Kelly

Dean Sherry, justice of the peace employed in the municipal courts, who is trying to make San Diegans believe that he is a judge of the superior court, is whispering, wherever neither he nor Superior Judge Edward J. Kelly is known, that Judge Kelly is a Catholic.

And among those who do not like Catholics, he gets away with it.

The joker is that Sherry is also a Catholic. Judge Kelly and Justice Sherry are Catholics and Knights of Columbus. They differ in the fact, most important to voters, of qualifications for the job.

Judge Kelly has been judge of the superior court for two years, Dean Sherry is a justice, or judge, if you want it that way, of the lower courts—the courts which are ordinarily known as the justice of the peace courts.

And the nice Jewish boys who are in the credit business—chipped diamonds, marked-down clothing, etc.—have mailed for Sherry Jewish New Year's greeting cards in Yiddish. Because Dean Sherry's court has been their collection agency against the poor ever since he has been in office.—S. D. Herald.
